*Emergency and Community Health Outreach*

## Key Messages for ECHO Show #405 & #406 “Tuberculosis (TB) Awareness and Treatment”

**Finalized Script Deadline: Friday, January 4th, 2008**

**Translation Deadline: Friday, January 25th, 2008**

*Translators:* Translate only the words not “number 1, number 2, number 3 and number 4”. Please contact your project manager with any questions. Good luck!

Number 1: People from countries where Tuberculosis – or – TB, is common should get tested for TB.

Number 2: TB is a curable and preventable.

Number 3: Anyone can have TB, so there is no need to be ashamed if you have the disease.

Number 4: If you have TB, it’s important you take all of your medication and follow the advice of your medical professional.
